Before using the product, please read the operating instructions, even if you are already familiar with the use of a similar type of products. Use the product only as described in these operating instructions. Keep the manual for further use.

At least for duration of the warranty, it is recommended to keep the original packaging, including the inner packaging material, the cash receipt and the warranty card. In the case of transport, wrap the device and put back in the original manufacturers box, ensuring maximum protection of the product (eg dispatching to the service center).

INSTRUCTIONS FOR USE

Cooling box 12/230 V 40 L

Portable cooling box, powered by 12V car cigarette lighter socket or 230V standard socket. Ideal companion for traveling, holidays, picnic, or shopping.

An inner volume of 40 liters holds a large amount of food. You can conveniently place higher bottle with drink in the cooling box, thanks to the round hole in the lid. The cooling box is easily portable, it has a practical handle for easy carrying.

Cooling box is made on thermoelectric basis, it uses a fan cooling system free of any freons. It allows lowering temperatures by 15 - 20°C under the ambient temperature (measured at 25°C) inside the box.

This cooling box is also equipped with ECO mode, which can significantly save energy consumption (A++).

Before first use, the operating instructions must be thoroughly read.

IMPORTANT SAFETY NOTICE

General measures

- Do not use this device if it is visibly damaged.
- Check if the ventilation openings are not covered.
- Repairs may only be carried out by an authorized service center or similarly qualified person. Improper repairs increase the risk of injury or damage.
- Do not use any electronic devices inside the box unless recommended by the manufacturer.
- This device is not intended to use for person (including children) with reduced physical, sensory or mental capabilities, or person with limited experience and knowledge, unless supervised or instructed to use the appliance by a person responsible for their safety.
- This device is not a toy. Children must be supervised, ensuring that they do not play with this device.
- Store the food in the cooling unit, only in its original packaging or corresponding containers.
- This cooling device is not suitable for storing or transferring corrosive substances, solvents, etc.

Obsah je uzamčen

Dokončete, prosím, proces objednávky.

Následně budete mít přístup k celému dokumentu.

Proč je dokument uzamčen? Nahněvat Vás rozhodně nechceme. Jsou k tomu dva hlavní důvody:

- 1) Vytvořit a udržovat obsáhlou databázi návodů stojí nejen spoustu úsilí a času, ale i finanční prostředky. Dělali byste to Vy zadarmo? Ne*. Zakoupením této služby obdržíte úplný návod a podpoříte provoz a rozvoj našich stránek. Třeba se Vám to bude ještě někdy hodit.

**) Možná zpočátku ano. Ale vězte, že dotovat to dlouhodobě nelze. A rozhodně na tom nezbohatneme.*

- 2) Pak jsou tady „roboti“, kteří se přiživují na naší práci a „vysávají“ výsledky našeho úsilí pro svůj prospěch. Tímto krokem se jim to snažíme překazit.

A pokud nemáte zájem, respektujeme to. Urgujte svého prodejce. A když neuspějete, rádi Vás uvidíme!
