Infrared measurement technology (contactless and hygienic)

Suitable for babies, toddlers and adults

LCE fever signal light

Illuminated LCD display

PC-FT 3095	Contactless forehead thermometer

Without decoration

> Forehead thermometer for contactless and hygienic measurement of body temperature
> Suitable for babies, toddlers and adults
> 3-colour LCD fever signal light 😀😐🙁:
  – green: normal temperature (34.0 °C–37.4 °C)
  – orange: increased temperature (37.5 °C–37.9 °C)
  – red: fever (38.0 °C–43.0 °C)
> Illuminated LCD display (easy to read) – ideal for sleep/dark measurements
> Acoustic end signal
> Silent mode – signal tone can be switched off for sleep measurements without disturbing the baby or toddler during sleep
> Display for: fever measurement, 3-colour fever signal light (normal temperature, increased temperature, fever), Celsius, Fahrenheit, signal tone (on/off), battery change
> Infrared measurement technology (contactless and hygienic)
> Measuring range body temperature: 34.0 °C–43.0 °C
> Simple 1-button operation
> Precise measurement of body temperature in °C and °F

> Measurement result in 1 second
> Measuring function automatically switches off (after approx. 10 sec.), increases battery life
> Battery change indicator on the display
> Easy cleaning
> Battery operation: 2x 1.5 V AAA (batteries not included)

Certified according to CE 0197/ TÜV Rheinland, MDD 93/42/EEC, ISO 13485
